Cordless Base Station

VSP601 DECT 6.0 SIP
Cordless Handset

More for your money

ErisTerminal is a cost-effective alternative to traditional analog and digital phone systems. Cut installation costs with Power over Ethernet (PoE), dual Ethernet ports and auto-provisioning. And relax knowing you've made the right choice with products that are competitively priced, come with U.S. call-center support and feature two-year standard warranties.

More ways to connect

Compatibility with hosted and open-source PBX platforms means you're always open for business.* That takes the hassle and cost out of managing the back-end infrastructure on your own.

More mobility

Competing priorities? Our VSP600 cordless base station/handset combination comes with Orbitlink Wireless Technology™, so you can keep your customers on the line even when you're on the move in your office. Add phones anywhere there's an Ethernet drop and then program each with a unique number—an affordable way to expand call coverage. For even more mobility, add the VTech VSP505 DECT 6.0 accessory cordless headset to the mix.

* Compatible with Broadsoft® and Asterisk-based platforms.

Full of features

Enjoy all the PBX features and functionality you're used to—and more.

- **Power over Ethernet (PoE):** With PoE support, you can locate the phones anywhere that's convenient—no AC outlets or complicated wiring required.
- **HD Audio:** Calls have never sounded so rich and life-like with HD Audio G.722 wideband codec support.
- **Scalability:** Expand the system as your business grows. Each DECT SIP cordless base station supports up to six handsets.
- **Dual Ethernet ports:** Do more with dual Ethernet ports. Connect your desktop computer or laptop to the phone—no need for extra cabling.
- **Multi-line support:** Manage multiple lines and calls simultaneously with advanced call handling features.
- **Programmable buttons**
Ensure every call is handled right the first time with customizable feature buttons—from shared call appearances (SCA) to busy lamp fields (BLF).
- **The VTech advantage**
When you choose VTech for your business, you're buying more than a phone system. You're partnering with the #1 manufacturer of cordless phones in the world, with over 20 years of experience and 41 million handsets shipped.
